

Operation Protect your data and get a gift card

General terms and conditions

1. Kaspersky is offering participants a partner offer: [Ubereats.com/ca](https://www.ubereats.com/ca) Gift Card*. Only one 10 Canadian Dollars value gift card will be offered per order, even if the order contains several Kaspersky products.
2. The offer is valid while the stock lasts, for the purchase of a Kaspersky antivirus on www.kaspersky.ca website. Participation in this offer is exclusively by electronic means and is open to any individual of legal age, regardless of nationality, residing in Canada and with Internet access, (hereinafter the 'Participant'). The offer is subject to conditions and cannot be combined with other promotions, offers or benefits.
3. Each participant (same e-mail address) may participate only once as long as he/she meets the condition of having made an eligible purchase.
4. To obtain the gift card, the participant will receive a link in the order confirmation email. The participant must click on the link received 30 calendar days after its receipt. The participant should then enter its Kaspersky order number on the website to access the Uber Eats gift cards. Once the gift card has been selected and validated, the Uber Eats gift card code will be displayed automatically. The code must be redeemed no later than 14 days from the 30th day following the date of purchase. Once this period has expired, the offer will automatically expire and the Uber Eats Gift card will no longer be available or redeemable.
5. Kaspersky reserves the right to stop or suspend the operation in the event of fraud or in all cases where, for any reason whatsoever, the computer system awards prizes not provided for in these general terms and conditions. In such cases, messages informing participants of a prize will be considered null and void.

Gift cards cannot be reimbursed in whole or in part, in cash, and cannot be combined with any other promotional offer. Kaspersky will not be held responsible in any way whatsoever or required to provide any financial compensation to the participant or any holder of the gift certificate in the event of:

1. Refusal to accept the gift card by the partner,
2. Inability of the gift card holder to use the gift card,
3. An error in the content of the gift card
4. Any loss, injury or damage suffered by the participant while using the product(s) purchased using the gift card.

Neither Kaspersky nor its agents or distributors guarantee the quality or availability of the products offered by the partner, even if this results in loss or damage for the recipient of gift card.

6. Kaspersky will not replace any Gift Card that has been lost, deleted, stolen or damaged.
7. Kaspersky reserves the right to change these Terms and Conditions without notice.
