

Most tested. Most awarded. Kaspersky protection.*

During period of 2013-2025 Kaspersky products participated in 1122 independent tests and reviews. Our products were awarded 861 firsts and achieved 965 top-three finishes.

MOST TESTED*
MOST AWARDED*
KASPERSKY PROTECTION

*kaspersky.com/top3

* Notes:

- According to the independent test results of corporate and consumer products during 2013-2025.
- The summary includes independent tests conducted by: AppEsteem, AV-Comparatives, AV-TEST, Dennis Technology Labs, ICSA Labs, Matousec, MRG Effitas, NSS Labs, PCSL, SE Labs, Testing Ground Labs, The Tolly Group, Virus Bulletin.
- The performed tests assess protection technologies against known, unknown and advanced threats.
- The bigger the circle, the more often the company's solutions ranked first in independent tests.

2013-2025 TOP3 metric description

TOP3 metric reflects how successful a vendor was in independent comparative tests within the selected period.

The main characteristic of success is a **TOP3 score** that shows how many times a vendor with its products gained the first, second, or third place in independent tests they participated in within a reported period. **The TOP3 score** is calculated by dividing a vendor's **TOP3 counter** by a vendor's **Participation counter**.

The TOP3 score is determined for each participating vendor separately and then compared to each other.

- Depending on a test, final test results may vary from giving awards for participating vendors to providing only a list of their detection rates and false positives.
 A vendor's **TOP3 counter** is incremented either for winning an award or ranking in the first three places in a test. It cannot be incremented both for receiving the award and one of the first three places.
 Several vendors can achieve equal results in detection rates, or summary results, or win awards of the same grade. In this case, the vendors share the same place in the same test.
 In case of detection rates or summary results, the place of a vendor with the lower result is calculated as "number of higher ranked vendors + 1". For instance, the sequence "1,1,2,3" is not possible, whilst "1,1,3,4", or "1,2,2,4", or "1,1,1,1,6" are. In the latest sequences TOP3 counter will be incremented for bolded vendors only.
 In regards with awards, refer to rule clarifications listed in the tests description below.
- A vendor's **Participation counter** is incremented each time one of its products participates in a test/review/overview.
 In some tests several products of one vendor can participate in the same test. In those cases, since all products increment the vendor's Participation counter, the Participation counter can be higher than a total number of tests.

Only those who participate in 35% or more of the total number of tests have their results represented in the chart.

The deadline for submitting scores attained during period 2013-2025 was February 9th, 2026, with no option to add any test/review after this date.

Among the security vendors participating in the TOP3 measurements are: Avast, AVG, Avira, Bitdefender, Broadcom (Symantec), ESET, F-Secure, G DATA, Kaspersky, McAfee, Microsoft, Sophos, Trellix, Trend Micro, WithSecure. A complete list of participants appears at the end of this document.

	N of tests entered	N of TOP3 places	Score of TOP3 places (%)	N of 1st places
Kaspersky	1122	965	86%	861
Bitdefender	927	610	66%	545
Broadcom (Symantec)	600	364	61%	253
ESET	743	430	58%	343
Avira	585	316	54%	273
Avast	807	431	53%	381
Sophos	497	230	46%	173
AVG	590	261	44%	241
G Data	494	204	41%	196
Trend Micro	738	298	40%	257
Microsoft	649	233	36%	177
McAfee	721	257	36%	221
F-Secure	544	179	33%	154

2013-2025 TOP3 metric description

The tests included into TOP3 metric for each separate year, as well as their distribution by various types of threats, including advanced threats, and test types, are listed in the corresponding PDF documents:
